

Cookie policy

What intelevate.ai stores on your device. The short answer is: nothing.

1. This website does not use cookies

We set no cookies on this Website. There is no analytics cookie, no advertising cookie, no tracking pixel and no third-party tag.

Because of that, there is nothing for you to accept, refuse or configure, and no consent banner is shown.

2. What a cookie is

A cookie is a small text file a website stores on your device so it can recognise you on a later visit or remember a preference. Many sites use them for analytics and advertising. This one does not.

3. Requests that still leave your device

Two things happen that are not cookies, but are worth stating plainly:

- **Typefaces** are loaded from Google Fonts, so Google receives your IP address when the page loads. No cookie is set by this.
- **Server logs** are kept by our hosting provider, including IP addresses, for security and troubleshooting. These are ordinary technical records, not tracking.

4. Links that take you elsewhere

Following a link to WhatsApp, LinkedIn or any other external service takes you outside this Website. Those services set their own cookies under their own policies, which we do not control.

5. Changes

If we ever add analytics or any other cookie, we will update this policy before doing so and ask for your consent where the law requires it.
